PROFESSIONAL SUMMARY

Web Developer with 3+ years of experience designing, developing, and maintaining responsive, secure, and high-performing websites and web applications. Skilled in HTML5, CSS3, JavaScript, and modern front-end frameworks (React, Next.js), with hands-on backend experience in Node.js, Express.js, and RESTful API integration. Proven track record of improving site performance, strengthening security, and collaborating with designers and project managers to deliver exceptional digital experiences across fintech, healthcare, e-commerce, and SaaS platforms.

SKILLS & EXPERTISE

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TypeScript, Responsive Web Design, Tailwind CSS, Sass

Back-End: Node.js, Express.js, RESTful APIs, MongoDB

Tools & Practices: Git/GitHub, CI/CD, Agile/Scrum, WordPress, Website Security & Performance Optimisation, Cross-Browser Compatibility

Core Strengths: UI/UX Collaboration, Debugging & Troubleshooting, SEO Optimisation, Accessibility, Problem Solving

Soft Skills: Communication, Teamwork, Time Management, Adaptability, Attention to Detail

PROFESSIONAL EXPERIENCE

Lead Front-End Developer — Allwecure Pharmaceuticals

Nov 2025 – Apr 2026

- Led a team of 3 developers to design and maintain a scalable, multi-role e-commerce web platform using Next.js and TypeScript
- Built and maintained responsive, cross-device buyer, seller, and business-developer dashboards to support multiple user workflows
- Implemented role-based access control (RBAC) to strengthen application security and enforce proper permission handling
- Integrated back-end APIs and third-party services for authentication, product management, and order processing, ensuring seamless data flow
- Troubleshoot and resolved performance issues, achieving faster load times and smoother navigation across browsers and devices
- Collaborated with stakeholders and project managers to translate business requirements into scalable, well-documented technical solutions
- Led code reviews and enforced best practices to maintain clean, efficient, and well-documented code

Freelance Web Developer — Remote

Jan 2024 – Present

- Designed, developed, and maintained custom websites and web applications for clients in e-commerce, education, healthcare, and SaaS
- Built SEO-optimised, mobile-first, and cross-browser compatible interfaces, improving organic traffic and search rankings
- Optimised website speed and performance using code splitting, lazy loading, and other performance-tuning techniques
- Integrated websites with databases, APIs, and third-party services to support business functionality
- Performed regular maintenance, updates, and troubleshooting to ensure reliable, secure web platforms
- Collaborated directly with clients and designers to translate business goals into user-friendly digital experiences

Front-End Developer — Integrated Software Services Limited

Apr 2024 – Nov 2024

- Enhanced application UX, driving a 15% increase in conversions
- Reduced page load time by 30% through performance optimisation
- Improved onboarding flow, reducing user drop-offs by 10%
- Built reusable, well-documented UI components for long-term scalability
- Worked closely with product and back-end teams to integrate APIs and deliver features on schedule

Back-End Developer Intern — Tech4Dev

Oct 2023 – Apr 2024

- Developed RESTful APIs and designed database schemas to support application features
- Improved back-end reliability, reducing errors by 15%
- Collaborated with front-end teams to ensure seamless integration between systems
- Participated in debugging, testing, and system optimisation

Front-End Developer Intern — Revocube Technologies

Aug 2022 – Oct 2023

- Built responsive interfaces that improved user engagement and usability
- Increased checkout completion rates by 12%
- Reduced page load time by 25% through front-end optimisation
- Debugged issues and enhanced overall application performance

SELECTED PROJECTS

Allwecure — Healthcare Procurement Platform

- Developed a healthcare procurement platform connecting suppliers and customers, using Next.js and Tailwind CSS, with a focus on usability, accessibility, and trust

AI Job Tracker

- Built an AI-powered job tracking application with Next.js, TypeScript, and Appwrite, featuring resume analysis, cover-letter generation, and productivity dashboards

Ride-Sharing Platform

- Built a full-stack application with real-time messaging, ride matching, Google Maps API integration, and secure authentication

Tee-Essentials — E-Commerce Platform

- Built a React and Redux e-commerce platform with cart, wishlist, filtering, and Stripe payment integration

EDUCATION & CERTIFICATIONS

B.Sc. Computer Science — Elizade University

- Meta Front-End Development Certification
- Programming with JavaScript — Meta
- Version Control — Meta
