- Problem-solving skills
- Organization and time management skills
- NextJS, React, Typescript, Framer motion, JavaScript, NodeJs, ExpressJs, MongoDB, Sass, CSS, HTML, Github, Git, WordPress, Tailwind CSS

## CAREER OBJECTIVES

Results-driven Frontend Developer with backend exposure, experienced in building and optimizing scalable web applications across fintech, edtech, and e-commerce industries. Skilled in translating business needs into intuitive digital solutions that enhance user experience, increase conversions, and drive measurable growth. Seeking to leverage technical expertise and problem-solving abilities in a dynamic team where I can contribute to impactful products while continuously advancing my skills.

## WORK EXPERIENCE

FRONT-END DEVELOPER

**Integrated Software Services Limited**

*April 2024- November 2024*

- Improved and optimized the company's web applications, leading to a 15% increase in customer conversions through a smoother user experience and clearer call-to-action flows.
- Corrected and optimized sections of an existing codebase (loan application), which reduced loan form load time by 30%, improving customer experience and driving more successful submissions.
- Integrated customer feedback into frontend features, improving navigation and reducing drop-offs during onboarding by 10%.
- Partnered with backend and business teams to design customer-focused solutions that supported sales growth and client retention.

FRONT-END DEVELOPER (INTERN)

**Sippy Life**

*April 2024- November 2024*

- Assisted in developing and maintaining the company's e-commerce platform for beverage sales, ensuring a seamless shopping experience for customers.

- Enhanced UI components and improved product display pages, contributing to higher customer engagement and a 12% increase in completed checkouts.
- Collaborated with the design team to implement responsive layouts, improving mobile usability and accessibility for on-the-go shoppers.
- Fixed frontend bugs and optimized code, reducing page load time by 25% and improving overall site performance.
- Supported integration of customer feedback into product features, helping tailor the e-commerce solution to buyer needs.

BACK-END DEVELOPER (INTERN)

**Tech4Dev (Women Techsters Fellowship)**

*October 2023- April 2024*

- Developed and maintained backend APIs to support web and mobile applications, ensuring reliable data flow and integration with frontend systems.
- Worked with databases to design schemas, optimize queries, and manage data persistence for scalable applications.
- Collaborated with frontend teams to implement RESTful endpoints that improved overall product functionality.
- Participated in code reviews, debugging, and testing, which improved backend stability and reduced system errors by 15%.

FRONT-END DEVELOPER (INTERN)

**Revocube Technologies**

*August 2022 - October 2023*

- Worked with the sales team during product onboarding by building and demonstrating intuitive interfaces that showcased product benefits, leading to a 10% increase in customer conversions.
- Partnered with cross-functional teams (sales, product, and design) to tailor solutions that addressed client-specific needs, boosting adoption rates.
- Translated customer and stakeholder feedback into UI/UX improvements, strengthening product-market fit.
- Partnered with cross-functional teams (design, backend, and business) to develop Revocube Media's website.
